

CERTIFIED BOROUGH OFFICIALS PROGRAM

The **leader** in municipal training and professional development.

The Certified Borough Officials (CBO) designation is a voluntary educational achievement program for borough officials. It is designed to promote continuing education for borough officials and excellence in local government service. The CBO designation signifies a commitment to education, leadership, and staying informed on the important issues that affect borough communities.

CBO Program Requirements

To achieve the CBO designation and receive a certificate of completion, you must complete the five required program components and accumulate 76 CBO credits. The five mandatory program components outlined below account for 46 of the 76 required credits.

The remaining 30 credits required are considered general electives and may be earned by attending any PSAB training programs/events of your choice. CBO credits for training opportunities will be listed on program schedules. Generally, classes range from 3 to 12 credits and webinars 1 or 2 credits.

Credits are automatically tracked, no enrollment is required.

A PSAB Annual Conference (Full Conference) - 12 Credits

PSAB's Annual Conference is a four-day event held each spring, offering a full slate of educational sessions on wide-ranging topics applicable to borough officials. The conference also provides a great forum to network and share best practices with fellow elected and appointed officials.

B PSAB Classroom Training - Minimum 6 Credits

PSAB's classroom training is a staple of its educational programs because it's hard to replace face-to-face instruction. Each year PSAB offers numerous classroom training opportunities. These classes allow participants to spend one or two days on a specific subject.

C (NEMO) Boot Camp or Role as a Municipal Secretary/Administrator - 12 Credits

The two-day Newly Elected Municipal Officials (NEMO) Boot Camp, offered in even numbered years, is designed for newly elected municipal officials, but offers foundational information and best practices valuable for officials of any tenure.

-OR-

Your Role as a Secretary/Administrator is a two-day class designed to provide appointed municipal secretaries, administrators, and managers a detailed review of their many duties as well as advice to help these officials succeed in their role.

D PMPEI Core Courses - 10 Credits

One of the most important responsibilities of local government is the oversight of community development. Local government leaders get to help shape the character and function of their community through decisions on land use. The Pennsylvania Municipal Planning Education Institute (PMPEI) offers core courses in community planning, subdivision and land development review, zoning, and zoning administration to help officials excel in making community planning decisions. **Credits for PMPEI classes require submission of the CBO credit request form available at www.PMPEI.org.**

E PSAB Webinar Training - Minimum 6 Credits

PSAB offers weekly webinars throughout the year for learning at your convenience, from the office at work or at home. Webinars are typically an hour long, and cover an array of topics. PSAB's webinar platform allows for interaction through participant question submission. Webinars are recorded and available for review following the live presentation.
